SUES FOR BACK SALARY OF $4166

PROSECUTING ATTORNEY BRINGS ACTION AGAINST COUNTY COURT.

TO COME UP THIS TERM

One-Half of the Salary Has Been Paid But the Other One-Half Was Refused by County Court.

Prosecuting Attorney Charles F. McCaffrey has brought a suit against the county court of this county for the payment of back salary as is alleged to be due him. An alternative writ of mandamus was ordered by Judge Dawson returnable on September 25 when the county court will show cause why payment should not be made.

In the petition, it is stated the prosecuting attorney's salary since January 1, 1921, was $5,000 per year. The amount is ascertained under the law by multiplying the whole number of votes cast at the last preceding presidential election by 5. The vote at that election was 12,495 and gave this county an assumed population of 62,475 for the purpose of fixing the salary of prosecuting attorney, thereby fixing the salary at $5,000 a year. One-half of the salary has been paid, but the other one-half the county court has refused to pay for each and every month for twenty months. It amounts to $208.33 a month or $4,166.60 in all.

The salary question of Prosecuting Attorney McCaffrey has been up before the county court for a few months past and it was only last week that the court decided they would not make any settlement unless they were compelled to under the law.

The last legislature in 1921 adopted a measure fixing the salaries of prosecuting attorneys but the act was not effective until June that year. It was contended that the act was not applicable to the salaries of the prosecuting attorneys who were holding office at that time. That act fixed the salary of the office of this county at $2,500 a year.

A test case was sent to the supreme court several months ago and it was said the court decided the salary should be in accordance with the old law. Many counties in this section of the state have allowed the additional salary.

MAIME IS VOTING TODAY; FIRST ELECTION HELD

Primary Election in Massachusetts Tomorrow Will Decide Lodge's Fate.

Portland, Me., Sept. 11.—With the eyes of the entire country upon them, the voters of Maine are going to the polls today to elect a United States senator and four congressmen. While last minute predictions of Republican leaders were that the state would remain Republican by a plurality of forty thousand, the Democrats maintained that organizations of the Democratic women and other factors would bring about "a great surprise."

Senator Frederick Hale, Republican, is opposed for re-election by ex-Governor Oakley C. Curtis, Democrat. Governor Percival P. Baxter is opposed by William R. Pattangall, for many years the Democratic leader in Maine.

Boston, Mass., Sept. 11.—A campaign that has shaken both parties and confused the voters, ended today, and on Tuesday republicans will go to the polls to decide whether Senator Henry Cabot Lodge and Governor Channing H. Cox shall be renominated, and the democrats to select their opponents to the republican nominees.

There are contests in both parties also for the nominations for lieutenant governor and there are six candidates for the republican nomination for attorney general. Congressional contests are few.

Joseph Walker, former progressive and one-time speaker of the state house of representatives, opposes Senator Lodge.

BODY OF YOUNG GIRL FOUND FLOATING IN MISSOURI RIVER

Kansas City, Sept. 11—The body of the young girl with a hole crushed in the back of her head was found floating in the Missouri river, near here, today. The girl was about 11 years old. It was the second girls' body found in the river in a week, the mutilated body of a fourteen-year-old girl being found last Monday in the river.

2 INCHES OF RAIN SATURDAY AFTERNOON AND EVENING

Low Reading Last Night Was 42—Several Say They Saw Frost Early This Morning.

Two inches of rain fell Saturday afternoon, according to J. R. Brink, official weather recorder, and the low reading of the thermometer last night was 42. The rainfall Friday afternoon and night was 1.47 inches, making a total of 3.47 inches in the two days.

Several people have said today that they saw frost early this morning. Bruce Montgomery was among these. He said that it was in the low ground east of his home on West Third street. He said that he could not believe that it was frost until he felt it with his hands.

THINKS SHOULD CUT DRY LIMBS IN PARK

KANSAS CITY, KAN., MAN SAYS NICEST NORTH OF RIVER

BUT VISITORS IN DANGER

Visitors in Last Few Days Have Been Especially Complimentary, According to Book

"I have camped at all the places of much importance north of the river in Missouri and the tourists park here at Maryville has them all beaten a long way," said Robert Penny of Kansas City, Kan., who spent from Friday until this morning in the Maryville park. Mr. Penny is the representative of an advertising concern of Red Oak, Minn. He got here to work Maryville and was caught in the rain, so just remained until this morning.

"It seems to me that the park is just as beautiful as anything could be and just as convenient," he continued. "The only thing that I could suggest would be that of cutting the dead limbs from the trees. They are dangerous to tourists or to picnic parties in times of high winds. A limb fell here Saturday night that would have done considerable damage, had it struck a car. I believe that there is enough dead timber in the trees to run the tourists for an entire season if it were cut out. But if there is any hesitancy about having it cut out on account of the expense I would suggest that it be given to some one for fire wood for the cutting.

"I think that the idea of having a nice tourists park like this is one of the best plans that could be hit on for advertising a town and country. No one who stops here in this park could go away without remembering this as an excellent place, on account of the splendid accommodations in the park."

Tourists at the park have not been very numberous during the time since the rain. One party pulled in for lunch yesterday but that was the only one at the park throughout the day with the exception of Mr. and Mrs. Penny. Another party pulled in late last night. Those there, however, have in each case made complimentary remarks about the park.

"Motoring to Houston, Tex., with Stutz Bear Cat yellow car with trunk on the rear" wrote Mrs. Jack Reynolds of Omaha, in the register, who with her husband and son stopped at the park. "We think you have a very beautiful forest camp and the way it is arranged is so very nice."

Mr. Reynolds probably thought that his wife had not elaborated enough so he wrote as follows: "The meal we ate while in your camp was one of the best we have tasted for some time. We sure enjoyed everything. Thank you for the privilege of camping here."

"Finest park we have visited on our route," wrote D. H. Knepper of Hoba, Okla., who with Mrs. Knepper was driving through to Clarinda, Ia.

"Good tourists park," wrote Jeanne Henry of Janesville, Ky.

"Best place after Kansas City, Kansas," wrote Searg. James P. Flanahan of El Paso, Tex., who was going to Chicago.

"Some park. Thanks," wrote Mr. and Mrs. F. M. Skinner of St. Joseph, who were enroute to Chicago.

"Thanks," wrote Mr. and Mrs. T. R. Simpkins of Hatfield, Mo.

Grover Hatcher Improves

The condition of Grover Hatcher, who was shot at Quitman Thursday night, was said to be much improved today. He is still at Burlington Junction, where he was taken on the night of the shooting.

M. H. S. FOOTBALL SCHEDULE READY

HAVE ONLY TWO CONFERENCE GAMES.

OTHER SCHOOLS "SHIED"

They Avoided Including Maryville and Trenton in Their Season's Games.

The football schedule for the Maryville High School this fall, as arranged at St. Joseph Saturday, follows:

October 6—Rock Port at Maryville.
October 14—Chillicothe at Maryville.
October 21—King City at King City.
October 27—Tarkio at Tarkio.
November 4—Lafayette High School of St. Joseph at Maryville.
November 10—Trenton at Maryville.

Superintendent L. E. Ziegler and Coach H. Frank Lawrence of the Maryville High School met with a lot of difficulty at St. Joseph Saturday afternoon in arranging a schedule for the football team. Superintendent O. G. Sanford and Coach Barnes of Trenton had a like experience. Neither of the schools were able to schedule more than two conference games.

These two schools have held the championship of Northwest Missouri for the past five years and it seemed that all the other schools in the sub-district were anxious to avoid playing them.

Maryville's two conference games are King City and Trenton. The other four are outside of sub-district number 4, to which Maryville belongs. It is the ruling in the Northwest Missouri Inter-High School Association that each of the schools that competes for the championship shall play at least four games in their sub-districts. Mr. Ziegler said today that Fred E. Vandersloot, principal of the Benton High School of St. Joseph and football manager for the district, is writing letters to other schools in an effort to arrange enough conference games for Maryville to raise the number to four. If he is unable to do this he will sanction Tarkio and Rock Port as the other two conference games for Maryville.

As the schedule now stands, Maryville will have six games, four of them here and two away. There will be a game each week from the opening, October 6, until November 10, when Trenton will be here. Mr. Ziegler says, however, that there will be other games in Maryville. During the last two weeks before Thanksgiving there will be games between the leading teams of the district to determine the championship.

Several amendments to the constitution of the association were discussed at the meeting in St. Joseph Saturday afternoon. Only football and debating are now left under the control of the association. Basketball and track and all other inter-scholastic contests will be left in charge of the Northwest Missouri Teachers College here.

Savannah, Tarkio and Rock Port were added to sub-district 2. They had formerly been in sub-district 4.

Mr. Ziegler was made football manager of sub-district number 4 at the meeting Saturday afternoon.

MRS. HARDING IS MUCH IMPROVED, BULLETIN SAYS

President Harding and Those Constantly in Attendance Were Greatly Cheered

Washington, Sept. 11—Mrs. Warren G. Harding is improving today and the contemplated operation upon her kidneys was deferred pending further developments, according to an official bulletin issued from the White House today. Her temperature has dropped slightly, pulse beat is lower and respiration has improved.

President Harding and those constantly in attendance of Mrs. Harding since her illness were greatly cheered by encouraging reports from the sick room.

GREAT BRITAIN TO SEND FINANCIAL MISSION HERE

Washington, Sept. 11.—Great Britain is expected to send a financial mission to Washington within ten days to begin negotiations for funding five billion dollar debt to the United States, it was stated at the treasury department today.

COUNTY JAIL RANKED AS BEING VERY POOR

Report of Supervisor Says Jail Should Be Closed on Account of Bad Condition.

The Nodaway County jail was ranked as very poor as being without proper light and ventilation, lacking in sanitary facilities, damp and odorous, according to the report of William L. Miller, supervisor of county jails and almshouses to the state board of charities and corrections.

"The condition of the Nodaway County jail is intolerable. It should be closed and their prisoners placed elsewhere," Miller says.

OCCUPATION OF SMYRNA

Several Reported Killed in Fighting Between Christians and Turkish Mohammedans

London, Sept. 11—The Greek army massed in Thrace to menace Constantinople from the north is withdrawing, according to advice received today from Constantinople. Newspapers predict that the allies will concentrate a fleet of British airships along the Dardenelles and Sea of Marmora to prevent the Turks from attempting to cross into Thrace.

Athens, Sept. 11—The New Greek Cabinet, headed by M. Treintefyllakes, began to function today, after taking oath to support the crown. All the new ministers are Moderates. It is rumored that former-Premier Venizelos will attempt to return if King Constantine will abdicate.

Washington, Sept. 11—Allied consular officials including one from America are meeting today with Mustapa Kemal, Turkish leader at Casaba, to arrange terms for formal Turkish occupation of Smyrna, according to a dispatch received at the state department from Admiral Bristol, American high commissioner, at Constantinople.

Constantinople, Sept. 11—Fighting between the Turkish Mohammedans and the Christians in which several were killed was reported from Pera, suburb of this city, today.

TREASURER TO RECIVE FEES AT COLLEGE TOMORROW

Some Students Had Arrived at Noon Today and Large Crowds Expected on Evening Trains

Murray Welling, treasurer of the State Teachers College, will be at the College tomorrow to receive the enrollment fee from the incoming students in place of receiving them at the Farmers Trust Company. Mr. Welling said that he was going to be at the College to save the students the trouble of making the trip back and fourth from the College to the bank while they are enrolling.

Mr. Welling said at noon today that he had several calls this morning from students who wished to pay their fees.

President Uel W. Lamkin and Dean George H. Colbert are at the College today confering with students regarding their courses.

Tomorrow is the day for enrollment at the College and class work will begin Wednesday. A few students had arrived in town at noon today and a large crowd is expected on the afternoon and evening trains.

The committee on registration met at the College this afternoon. Dean Colbert is chairman of the committee, Miss Beatrix Winn is advisor for the seniors, M. W. Wilson is advisor for the juniors, Burt W. Loomis is advisor for the sophomores and Dr. Fred Keller, advisor for the freshmen. C. A. Hawkins, T. H. Cook, Harry A. Miller and Miss Carrie Hopkins are the advisors for the high school people.

The committee at its meeting this afternoon will make all plans for the registration tomorrow so that it may be carried on as rapidly as possible.

Todd in Jefferson City.

H. C. Todd, manager of the Hanamo Telephone Company, is in Jefferson City to attend the meeting of the Missouri Telephone Association, of which he is a member. He is expected to be back tomorrow or Wednesday.

FIGHTS AT END OF BASEBALL GAME

UMPIRE KNUCKLES RESENTS BEING CALLED A THIEF

WILCOX VS NEW MARKET

Score Was a Tie in the Seventh Inning and Visiting Team Decided To Quit

The baseball game at Wilcox between Wilcox and New Market yesterday afternoon ended in an argument at the end of the seventh inning, followed by two fisticuffs. The score at the end of the seventh inning was a tie, 2 to 2.

The "beefing" began early in the game when Empire Knuckles of Coin, Ia., made one of the New Market men go back to third after he had made it from first base to the home plate. New Market continued to make slighting remarks about the kind of treatment it was receiving through the decisions of Umpire Knuckles. In the seventh inning when Knuckles called a Wilcox man safe on first and another safe at the home plate the visitors blew up and quit.

There was a big crowd of fans and they at once began moving to go home.

Suddenly there was action. Ed Rogers of New Market went staggering back from a blow from Umpire Knuckles. It was said that he had gone up to the umpire and told him that he was stealing the game from New Market. This was too much for Knuckles and he "walloped" the New Marketite.

Rogers gained his poise and went with head down for Knuckles, attempting a clinch. Knuckles rained a storm of blows on Rogers neck and about the side of his face. The combatants were laid hold of by bystanders and separated. Apparently no one was hurt.

With the game called off there came the question as to who was to get the money that was bet, the score being tied. Another argument followed and just as the excitement over the first bout had died down some one walked up and began on Henry Buhler, striking him three times, some of the bystanders say. This subsided in a little while and everyone went home.

Following is the lineup for the two teams:

Wilcox—Leech, ss; Egley, cf.; T. Tobin, c; Jones, fb; P. Tobin, s; Kinnen, p; Booth, lf; Shell, rf; Brennan, tb.

New Market—Eubanks, lf; Smith, c; Adams, fb; Pullman, ss; Tranine, tb; Hill, cf; McCoy, sb; Baker, rf; Bayer, p.

Kinnen of Wilcox got thirteen strikeouts and Boyer of New Market got eight.

New Market's scores were made by Eubanks and Smith in the first inning. The scores were made on a walk and a wild ball.

The scores for Wilcox were made by Booth and Kinnen in the second and seventh innings, Booth getting the only hit of the game for Wilcox.

T. Tobin, Wilcox's catcher, went into the game before the end of the first inning, in spite of the fact that he was recovering from a broken finger. He did good work.

Hopkins-Stanberry

The game that had been announced to be played between Hopkins and Stanberry was called off.

Guilford vs Bolckow

Guilford defeated Bolckow by a score of 1 to 0 in the tournament at Bolckow Saturday and in the game yesterday it is said that Bolckow won from Guilford by a score of 9 to 4. The game yesterday did not count in the tournament, however. The tournament will be continued next Friday and Saturday.

Clearmont Beats Elmo.

Clearmont defeated Elmo by a score of 3 to 0 in a well-played game. The batteries were: Clearmont, Knuckles and Watson; Elmo, Lamar and Huffstetter. Clearmont will play New Market at New Market Wednesday.

CORN HERE IS 100 PER CENT

THAT IS THE REPORT FOR NODAWAY COUNTY BY BOARD.

GRAPES IS 96 PER CENT

September Crop Report Shows Nodaway County Has Bumper Crops—Mo. Corn Lost.

Jefferson City, Mo., Sept. 11.—The farmers of Nodaway County report to the State Crop Reporting Service that on account of the heat and dry weather of the past month, corn is 100 per cent of a crop and that there is being cut 9 per cent for silage and 7 per cent for fodder. In addition to numerous other crops reported, the farmers place Irish potatoes at 71 per cent of a full crop, apples at 94 per cent and they say tame hay yielded this year 1.12 tons per acre. Fall pasturage is now 101 per cent, and grapes 96 per cent of a crop.

Missouri corn lost ten points during August, and now stands at 77 per cent of normal, indicating 176,207,000 bushels, according to E. A. Logan and Jewell Mayes of the Federal-State Crop Reporting Service. The excessive heat and drouth, accompanied by hot winds, reduced the corn prospects of August 8,988,000 bushels, the yield in prospect now agreeing almost exactly with the five-year average of 176,224,000 bushels, but is below the 1921 crop of 132,880,000.

Missouri corn at 77 per cent of normal, in September, indicates an average yield of 29.8 bushels, compared to 30 bushels in 1921, and a total of 176,207,000 bushels against 182,880,000. A few counties in the northwest have as good or better corn than has been raised during the past ten years, but throughout the state in general the crop is disappointing.

Corn fields that promised 100 per cent on August 1 were cut down 25 per cent in ten days by the drouth, heat and hot winds. Hill land corn in many communities was terribly punished. Some early corn escaped, but practically all middle plantings were damaged. The latest planting may make a fair crop if frost is late.

Hot winds injured the corn on the west side from the southern border north to the Missouri river, and the fourteen weeks drouth experienced by the eastern counties, such as Pike and Lincoln, also south of St. Louis, the more than seven weeks' dry weather destroyed corn prospects. Much corn is mature enough to feed.

Corn on June 1 indicated 76 per cent of a full crop. The improvement during June brought prospects up to 82 per cent on July 1, and additional gains in July indicated 87 per cent of a full crop on August 1, but no crop forecaster or prophet of the field could foresee the disaster that culminated in August which reduced Missouri corn prospects to 77 per cent, or practically back to the June indications. Farmers are cutting 6 per cent of the corn acreage for silage and 27 per cent for fodder.

Tame hay yielded 1.10 tons per acre against 1.13 tons in 1921, quality 86 per cent; 29 per cent will be baled. Timothy hay yielded 1.00 ton against 1.10 last year, 76 per cent of a normal yield; acreage harvested 88 per cent of usual. Alfalfa yielded 2.40 tons per acre against 2.50 tons last year, 91 per cent of a full crop, acreage above usual, with three cuttings made, and a fourth in prospect in some sections. Clover for seed has been cut

RAIL CONFERENCE IN CHICAGO TODAY

OFFICIALS ANXIOUSLY AWAITED DEVELOPMENTS

MANY SCORE DAUGHERTY

An Attempt to Impeach Attorney General Was Made in the House This Afternoon

Washington, Sept. 11—Officials anxiously awaited rail developments at Chicago and Atlantic City. Interest in Chicago is divided between the merit of the Daugherty injunction and the reported peace moves between the striking shopmen and a considerable number of railway executives. The executive council of the American Federation of Labor is meeting at Atlantic City discussing the advisability of a general strike and planning aid for the shopmen.

Washington, Sept. 11—An attempt to impeach Attorney General Daugherty was made in the house this afternoon by Representative Keller, Republican of Minnesota. He charged Daugherty abridged free speech, the press and peaceful assemblage in violation of the constitution and his failure to make prosecution when evidence was before him. Keller's charges were referred to the judicary committee on motion by Republican Leader Mondell.

Chicago, Sept. 11—Attorney Donald Richaberg for the railroad unions involved created a sensation at the railroad injunction hearing before Federal Judge Wilkerson today for the dismissal of the drastic writ when he charged Attorney General Daugherty "betrayed the confidence of the court and consequently betraying the respect for court, law and order."

He continually laid stress on "false presentations" of the attorney general.

Atlantic City, N. J., Sept. 11.—A bitter attack on Attorney General Daugherty was made by Samuel Gompers, president of the American Federation of Labor, in a speech today before the convention of the International Typographical Union.

Washington, Sept. 11.—Abolition of the United States railroad labor board is proposed in a bill introduced in the House this afternoon, suggesting disinterested tribunal for settlement of railroad disputes.

SUNDAY'S ST. LOUIS STAR HAD A PAGE WRITE-UP

The Sunday St. Louis Star in their mail edition had a page writeup and pictures of Maryville and Nodaway County. The article was written by Roy Godsey who was in Maryville last week getting data for the writeup.

LORACE LANDFATHER TO SCHOOL OF OSTEOPATHY

Mrs. Louella Landfather, 319 West Third street, received today word from her son, Lorace Landfather, that he had gone to Kirksville to enter the school of osteopathy. Lorace left here Saturday for Pattonsburg, where he farmed this summer, expecting to attend the osteopathy school provided he could make proper arrangements in the disposal of his corn crop. Lorace was graduated from the Maryville High School with the mid-year class last winter.

His Brother Sick

George Mulholland received word today that his brother, Jim Mulholland near Humansville, Mo., had sustained a stroke of paralysis yesterday. Mr. Mulholland will probably leave for Humansville within the next few days to see his brother.

Guest at Haller Home.

Miss Gertrude Johnson of Bedford, Ohio, arrived in Maryville this morning for a visit at the home of her cousin, Mrs. Guy Haller, and Mr. Haller. She will also visit Mr. and Mrs. Will Bracken and other relatives.

Miss Jessie Summers, who is teaching the Mt. Joy school, near Arkoe, spent the week end in Maryville with her mother, Mrs. R. C. Bohart.

THE WEATHER

Fair tonight and Tuesday; somewhat warmer Tuesday and in the west and central portions tonight.

THE AMERICAN HOME.

American home life is in a state of chaos, according to the report of the national council of the Protestant Episcopal church. It compiains of divorces, broken homes, disregard of religion, neglect of parental responsibility, lack of obedience by children. Many other authorities feel that American home life is not doing justice to the children.

Conditions on the whole are perhaps not worse than formerly, but certain evils are obvious. It is wrong that so many young people marry in such a trifling way. "If we don't like each other we can get divorced" is a common feeling. People who take such responsibilities so lightly will not be good home makers nor good child trainers.

The children that used to be reading under the evening lamp are now at the movies or chasing around the country on petting parties. Parents are rather apt to shirk their responsibilities and to "pass the buck" over to other agencies. A facetious writer answers the question "Where is daughter?" by suggesting that she may be out hunting mother. The children are sent for mental instruction to the public school, and for religious and moral precepts to the Sunday schools, and many parents feel that this absolves them from responsibility. The children get misconceptions of life from many sources, and when they act on those misconceptions the indifferent parents grieve and wonder why their children went wrong.

Public school can give but little attention to the individual child. The Sunday schools have the children but a few brief moments and often the youngsters are so uproarous that nothing can be done with them. The young people must get their conceptions of basic morality from their fathers and mothers. Society has created the institution of the home as the instrument by which the race passes on its ideals. Unless parents take their duties seriously the home will fail to perform their function and community life will become disorganized. Young people should not marry until they can realize that married life carries with it some serious responsibility.

DINNER TIME.

There has always been considerable discussion in families and among medical men, as to whether the heartiest meal of the day should be eaten at noon or at night. Some light on this question is given by a canvass made of the views of physicians by the Medical Review of Reviews.

It will be something of a shock to the millions of conservative people who still follow the old plan of having dinner at noon, that only seven physicians represented in this canvass favor the hearty mid day meal. The general sentiment was that breakfast should be heavy, while the noon day lunch should be light, which brings the big meal of the day to the night.

It seems to be considered in many circles more fashionable to have dinner at night. This point of view may have started from the fact that in large cities a great body of people are away from their home at noon. Their offices and shops are at some distance, hence they naturally patronize restaurants and lunch rooms for their noon day meal. Millions of them eat out of the traditional dinner pail or the modern thermos bottle.

Naturally when all these folks return to their home at night they desire a hearty meal. Many people who formerly had the old time noon day dinner, have moved their heavy meal over to 6 o'clock, to conform to the prevailing style, and have been pleased with the results.

Some doctors used to say that people with weak digestion did better to eat a light supper and take their hearty meal at noon. But the canvass referred to above indicates that the night dinner idea is spreading.

A Congressman has introduced a bill forbiddiag the issuance of "illegal injunctions." It goes without saying that illegal injunctions should not be issued any more than any other illegal act. But, if a Federal Judge does not know what is legal and what is not, how are ordinary citizens to know?

We can't understand why

Making enemies when it is
Much easier to make friends.

An ideal cast for a motion picture thriller could be one made up of cinema actors who have figured in the recent scandals.

The court house cynic, says many lawyers can make touching appeals in behalf of their clients but you can rest assured they touched the clients first.

The wife of one of our friends kept him waiting on a street corner a long time the other day and he was a little peeved. When she finally arrived he scolded her saying "What do you mean making me stand on the corner here for a hour like an idiot?" "Now it is no use to talk that way" she replied sweetly" I can't help it if you stand like an idiot."

There are a lot of people in Maryville who use religion as a cloak and some who use it as an umbrella.

Uncle Abner, the town philosopher, says you will always find plenty of room at the top and that the rents there are more reasonable.

A newspaper writer giving advice on courtship and marriage recently said no girl should get a proposal before she is 20 years old. Our observation is that if she does not get a proposal at 20 she usually stays 20 until she does get one.

One of our salesman friends at a shoe store tells us button shoes have gone out for good. Now the Maryville men can take their shoe buttoners from their key ring and lay them away in the drawer to keep company with the bottle opener they removed a year or so ago.

A man may be up a tree and still be on earth.

There is no bigger joke on earth than the one having two legs.

The only way a girl who has done something noteworthy these days can get her picture in the newspapers is to pose in a bathing suit.

It does not grieve a skinny girl to dress modestly.

The fact that a wife has soft white hands does not keep her from ruling poor hubby with an iron hand.

Echoes From Yesteryears

"Surely, madam, you could not expect to get strictly fresh eggs for less than 10 cents a dozen. The price may be a little high but you must consider you are getting quality."

Preacher Uses Unique "Ads"

A Stockton, Kansas, minister this week is running a peculiar church announcement in the local newspaper which he expects will increase the attendance at his church services and, if successful, it is said he may run similar "ads" weekly. The first "ads" read:

"Missing—Last Sunday, some families from the church."

"Stolen—Several hours of the Lord's Day by persons of different ages, dressed in golf clothes, baseball togs, traveling clothes, or otherwise. Those guilty will be apprehended in the judgment, if not before."

"Strayed—Many children of Stockton, believed to have gone in the direction of 'No Sunday School.'"

"Wanted—Several young persons. Last seen were joyriding in Joy Riders' highway, which leads to the City of Failure."

"Lost—A boy reared in the home under Christian influences. When last seen, was on the road to "The Far Country of Sin."

"Any person assisting in the recovery of the above will be rewarded by the Unfailing Rewarder."

America Leads in Home Comforts

THE average American home has more comforts and conveniences than the palaces of Europe. Home for home, the American household has a well-kept look, an atmosphere of prosperity and contentment you cannot find in the homes of any other country in the world.

In foreign lands, the modernized dwelling, as we know it, is found only in limited numbers and then only in the larger cities.

In America, even in remote rural districts, you find pianos, vacuum cleaners, washing machines, up-to-date heating systems, telephones and numberless appliances that go far to make life easier, happier and more worth while.

You may not realize it, but America's high standard of home life is due largely to advertising. For the development of advertising is distinctly American. It has taken its place as a leading force in bringing together the interests and wants of a great, united people. And a large share of the credit for this development is due the newspapers.

Stop and think how many of the appliances you use, the foods you eat, the clothes you wear, and other articles entering into your everyday life, were popularized by newspaper advertising.

Then you will realize what a vital part advertising has played and is playing in your daily life.

You owe it to yourself to read the advertisements. They mean a lot to you.

Bolin-Hansen Wedding

A pretty wedding took place at 3:30 o'clock Sunday afternoon at the home of Mr. and Mrs. Pleasant Bolin near Arkoe when their youngest daughter, Margaret, became the bride of John Hansen. The ring ceremony was performed by the Rev. T. J. Puckett of Maryville in the living room, the couple standing before a bank of ferns and flowers. Miss Gertrude Hansen, sister of the bridegroom, played the Mendelssohn wedding march as the bridal party entered the living room. During the service Miss Hansen played "The Rosary" (Nevin). The bride was attended by Miss Helen Bolin, niece of the bride, as bridesmaid, and Harry Hansen, brother of the bridegroom, acted as best man for Mr. Hansen. The bride wore a gown of white charmeuse satin with trimmings of georgette and rosebuds, and carried a bouquet of bride roses. The bridesmaid wore a frock of peach colored georgette and carried a bouquet of carnations. Following the ceremony a dainty, two course luncheon was served.

The bride is well known in Maryville, having attended the High School and the Conservatory of Music. She is a graduate of the latter school, and is also a registered graduate nurse. The bridegroom is a farmer and lives northeast of Barnard. He is a veteran of the world war and saw active service in France for about eleven months. The couple left in their car for a honeymoon trip to the Ozarks in southern Missouri, and after September 20 will be at home with the bride's parents. For traveling the bride wore a navy blue suit of poiret twill, with a small blue hat of canton crepe and gloves and slippers to correspond. The wedding guests were limited to immediate relatives of the couple.

DEMOCRATS WILL MEET TOMORROW AT SPRINGS

Platform Will be Adopted—State Committee to Perfect Their Organization.

Chairman Dan R. Baker of the Democratic County Committee and James Todd left this afternoon for Excelsior Springs, where they will attend the Democratic State Convention to be held tomorrow. At this meeting the platform which will put the party back into power after the fall election will be drafted.

All democratic nominees, from United States Senator Reed down to the men selected in the 114 counties and the city of St. Louis to make the race for Representatives on November 7, next under the present election law, and the new Democratic State Committee are supposed to attend this party powwow and sit as delegates. Senator Reed will be there, and so will be the three Supreme Court nominees, Judges Walker, White and Ragland, and all congressional, state senatorial, Circuit Judges, Superintendent of Schools candidates. Judge Biggs of the St. Louis Court of Appeals will be there. Many party county nominees and party leaders from all over Missouri will honor the conference with their presence.

Chairman Still Doubtful.

The new Democratic State Committee will open the campaign by selecting a chairman, a Secretary, a Treasurer, a Sergeant-At-Arms and an Executive Committee. These officials need not, under the present election laws, be members of the State Committee. For chairman those mainly repeatedly mentioned are: former Congressman William L. Igoe of St. Louis; F. G. Newberger of Joplin; Sam M. Phillips of Joplin; Joseph Shannon of Kansas City; and Ed. A. Glenn of Louisiana. Attorney Igoe had charge of Senator Reed's campaign in the city of St. Louis and Glenn managed the State campaign. The outcome of their combined efforts as is still forcibly remembered, is that Senator Reed swept the State.

Are Worth and Nodaway County Farm Women Disloyal?

Editor Democrat-Forum:

At the annual meeting of the M. F. A. and the W. P. F. A. at St. Joseph only one delegate for the W. P. F. A. from each of these counties was present. The Women's Progressive Association is a branch of the Missouri Farmers Association, one of the largest associations of dirt farmers in the U. S. Although this was the women's first annual meeting, there were 109 delegates present. They have a membership of 3,600. Several counties have as many as sixteen clubs. Most of these counties are organized and their secretaries gave their reports for the year. The reports show that the W. P. F. A. is doing splendid work in standing back of the M. F. A. Many of the local clubs are buying shares in the exchanges, elevators, etc. In some places they have established community houses and improved the rural life in general. Thus helping to keep the boys and girls on the farm. Let's show them next year that we are as loyal as the rest. The men from both counties were well represented. I don't believe we intend to be disloyel. Why not line up with the W. P. F. A. and show our colors? Why not encourage our men by organizing local clubs? Don't stand back and wait for some one else to lead in this grand work. Start and see how readily the rest will follow. This is the duty of every farmer's wife and daughter. If there is a W. P. F. A. in your community don't wait for an invitation to join, but consider it your duty to do so. The desire of the W. P. F. A. is:

First. To improve rural life;

Second. Build better farm homes and schools.

Third. Promote more friendly relations between neighbors.

Fourth. Teach co-operation and loyalty in farm club work.

Fifth. Provide wholesome and instructive entertainment for farm boys and girls.

Sixth. Foster all enterprises that lead to high and noble things in life. Every farm woman who agrees to be a booster and loyal to the farm clubs may become a member. Next time your local M. F. A. meets, let every farm woman go with the intention of organizing a W. P. F. A. or joining one already in your vicinity. Let's make Worth and Nodaway Counties proud of their W. P. F. A. by the next annual meeting.

Mrs. G. O. Reed, Springfield, Mo., president, will give you information you ask for.

One of the W. P. F. A. Members.

JUDGE DISMISSED MOTION TO FORFEIT HAMILTON BOND.

(From Clarinda Herald.)

Friday morning before Judge Cullison the motion was argued of which, the defendants in the Elmer Hamilton case had filed to set aside the decree of Judge Peters which declared forfeited the bond of Elmer Hamilton. When Hamilton skipped to Texas, failing to appear before the District Court on Saturday, April 1 to receive sentence, Judge Peters deferred the sentence until Monday, April 3, at noon for the purpose of permitting the bondsmen to produce him in court. When they failed to do so the bond was declared forfeited. The amount of the bond was $8,000, signed by John Kendall and John Irwin, who, it is understood, are protected by deed of trust on the Elmer Hamilton farm northwest of Elmo.

At one time Clerk Clovis and Sheriff Borland drove to Elmo, expecting to secure the cash on the bond. Failing to receive the cash at that time, legal measures were taken, leading to the motion above referred to, which Judge Cullison has denied, declaring the forfeiture of the bond to be still in effect.

The next action of the bondsmen is expected to be an appeal to the Iowa Supreme Court for reversal of the opinion of Judge Cullison just rendered.

SOME CORN HARVEST BEING CARRIED ON NOW

The earlier corn in Nodaway County is becoming dry and some of the farmers are putting it in the shock, although this does not seem to be a very prevalent practice this year. A considerable number are filling silos, among whom are John Gex, near Palestine; Maurers, Sunnybrook, and Barbers west of Skidmore.

Mr. and Mrs. S. S. Wolcott are having water and heat installed in their home at 215 South Market Street.

The ladies of the St. Patrick's Church will hold a rummage sale on September 21 and 22.

COUNTY'S SHARE OF STATE SCHOOL FUNDS

State Superintendent of Schools Sam A. Baker Gives Apportionment for 1922, with Comparative Figures.

Jefferson City, Mo., Sept. 11—The annual apportionment of state school funds for the fiscal year just closing is now being made to the several counties. The total amount to be apportioned this year is $4,552,236.09, compared with $4,422,114.98 for 1921 and $3,177,898.00 for 1920, according to Sam A. Baker, State Superintendent of Schools.

Nodaway County's apportionment for the several purposes is hereafter shown for the years 1922, 1921 and 1920, and you can note your county stands in the apportionment covering these years.

Rural aid is granted to school districts which have a valuation of $75,000.00 or less and which vote the maximum levy and still have insufficient funds to maintain an eight months' school. The amount the state contributes is equal to the deficiency. High school aid is based on valuation and whether or not the district votes the maximum levy. The amount varies from $200.00 to $800.00 for each school. The teacher quota is given to districts in the sum of fifty dollars for each teacher receiving less than one thousand dollars and one hundred dollars for each teacher receiving more than one thousand dollars. Attendance quota apportionment this year is practically three cents, and it is paid for each day's attendance of each child.

Nodaway County

Year 1922—Rural aid, none; high school aid, $1,600; teacher quota, $16,925; attendance quota, $25,070.18. Total amount apportioned, $43,595.18.

Year 1921—Rural aid, none; high school aid, $800; teacher quota, $14,975; attendance quota, $25,556.39. Total amount apportioned, $41,331.39.

Year 1920—Rural aid, none; high school aid, $5,015.47; teacher quota, $12,400; attendance quota, $15,301.80. Total amount apportioned, $32,717.27.

In commenting upon the apportionment, Superintendent Baker said:

"While our schools should be judged by what they produce rather than by what they cost, yet the matter of finances is an important factor, since money is needed to supply modern buildings, adequate and competent teachers. Missouri's educational conscience has been awakened and her good people are supplying the funds necessary to make our schools second to none in the country. I am gratified with the manner in which our citizens are responding to the needs of our public schools."

Branigers to New Home

Dr. and Mrs. E. C. Braniger will move tomorrow to their new home at 418 East First street, which they purchased last summer from Mr. and Mrs Verne Wray. Mr. and Mrs. Wray and family moved several weeks ago to the residence which they bought at 625 West First street.

Tractors Increase Farm Yield 25%

A RECENT report from a large number of Kansas farmers shows that they were able to plow an average of 2 inches deeper with tractors than with horses. Those who kept records claimed that this deeper plowing resulted in an increased yield per acre of 25%.

Power — petroleum power — is revolutionizing agriculture. Henry Ford says: "In the tractor, truck, automobile, and stationary gas engine—we have facilities that make farming enjoyable, profitable and worth while. Of all modern machines the tractor is one of the greatest blessings that has been devised for mankind. Fields cultivated by tractor-drawn plows produce more than fields turned by horse-drawn ones. Tractors make deeper plowing and subsoiling possible. This, in turn, enables the ground to renew itself instead of gradually wearing out."

The Standard Oil Company (Indiana) appreciates the value of the tractor on the farm, and realizing that the use of the tractor is now in its infancy, is preparing to meet the resulting demand for gasoline; for highly specialized lubricants and other petroleum products needful to successful power-farming.

When the power-farmer needs petroleum products his need is urgent and the entire community is interested in seeing that these needs are supplied promptly.

One of the most vital services rendered by the Standard Oil Company (Indiana) is that of assuring the farmer at all times a constant, dependable supply of high quality petroleum products.

This Company is able to guarantee such a supply because of its modern, constantly expanding manufacturing and distributing facilities, its efficient organization and its knowledge of markets and economic conditions.

These are conditions under which great expansion, coupled with high centralization are indispensable to the performance of a service essential alike to the farmer and the general public.

WITH NODAWAY CO. FARMERS

S. H. Wells

S. H. Wells put up last week at his farm on the south side of the State road, just east of the One Hundred and Two River, his third cutting of alfalfa and said that it was the best crop ahat he had ever had. He lost most of the second cutting in the big flood in July but thinks that the flooding of the land made the third crop grow better than ever.

Mr. Wells has 270 acres all bottom land in his farm. Corn and alfalfa are his principal crops. Some of the corn fields were under water at the time of the flood but no great damage was done. The corn crop will be a heavy one. He is spending his second season on this farm, formerly owning a farm eight miles south of Maryville.

Mrs. Wells has been raising Barred Rock chickens for years and thinks it a good breed. She has heard Rhode Island Reds bragged on so much, however, that she wants to give them a trial. Accordingly she has about 300 young ones coming on, which she hatched out this spring. She is eliminating the Barred Rocks and says that she will keep only the Rhode Island Reds for a year or two to see if they are as good in her opinion as the Barred Rocks.

Ollie Hamersky

Ollie Hamersky, who lives on the farm of his father-in-law, A. J. Walk, on the north side of State road and just east of the One Hundred and Two river, baled a part of his mow of hay last week and was baling more today.

The hay is timothy and is of a good quality. Mr. Hamersky sold ten tons of it to Glover & Alexander. Mr. Hamersky cut the hay, 25 tons of it, from 30 acres on which he allowed his four cows, his four horses and about 70 head of hogs to run all summer.

The fourth crop of alfalfa on his 8-acre patch will be ready to cut now within a short time. Mr. Hamersky says that it will be the best of the four this year. In the third cutting he estimated that he got fourteen tons and says that he believes that the fourth cutting will make sixteen or seventeen tons.

Mr. Hamersky has seventy head of spring shotes that he will put on feed when his corn is hard enough. He says that he might turn his hogs in the corn now and let them "hog it down" but that he does not like this system of feeding hogs very much and that he intends to shuck his fifty acres.

Fred Horn

Fred Horn and John Appleby have at Mr. Appleby's farm just east of the One Hundred and Two River a part of the wheat in stack that was washed out in the flood. Several other farmers along the river have some of the wheat stacked. They say that it has dried out pretty well. A. J. Walk is expected to be at the Appleby farm within a week or two now to thresh the stacks.

Mr. Horn and Mr. Appleby have about 125 head of hogs ready to put to feed. Mr. Horn turned them in on a small patch of corn to "hog down" the other day and says that as soon as they have finished this and become kind of tempered on corn he will put them in a larger field.

E. V. Wilcox

E. V. Wilcox, who lives at the John A. Wallace farm east of Maryville on the state road, put out about 1,400 hills of melons this year but did not have much luck with a considerable portion of the patch. He is going to have most of it plowed up and sown in rye for fall pasture. But some of the patch produced pretty well and some large melons were grown. Mr. Wilcox does truck hauling besides raising the melons.

Mr. Wallace, who has worked up a reputation as a melon grower in the past few years, is deputy game warden and did not have the time this year to devote to raising a crop on the farm. At present is serving as a deputy sheriff on strike duty at Conception Junction.

Fred Sutterlin

Fred Sutterlin, who lives on the farm of William Doffing, a half mile south of the O'Grady corner, has a big crop of peaches. There are between seventy-five and a hundred trees on the place. The first of the crop began ripening a month ago and Mr. Doffing said this morning that it looked as though they peaches would be ripening for a month yet. Some of them are "as green as a goard." All the peaches, with the exception of two trees, are free stones.

There was also a big crop of plums at the farm and what apple trees are old enough to do much bearing are well loaded. Most of the apple orchard, comprised of seventy-five to one hundred young trees, is young and not of an age to bear as yet.

George Neal

George Neal at his farm near Pickering has corn that is almost dry enough that it can be shelled. The ears are large and the appearance of them would indicate that the crop will be a big one. Mr. Neal has been plowing some hard ground at his farm for wheat with a tractor. He used an oil tractor and estimated that for oil it is costing a little more than 80 cents an acre to do the plowing. He says that the ground is so hard that it could not be plowed with teams and a gang plow.

NUMBER OF DATES LISTED FOR AGRICULTURAL FILMS

To Be Run Seven Times From September 15 to October 10 and at Various Places.

A number of dates for the showing of "Agriculture in Nodaway County," the farm films of the Chamber of Commerce, are listed at the Chamber headquarters. They are as follows:

CORN HERE IS 100 PER CENT

Continued from page 1

on a 25 per cent increased acreage, with no seed made in a few places but a good hay crop. Grain sorghums 80 per cent, millet 77 per cent, cowpeas 81 per cent. Most fall forage crops need rain badly.

Plowing for fall wheat is half done in a large portion of Missouri, but is at a standstill in many sections on account of dry weather and preparation of the soil is being delayed. Low prices and chinch bugs evidently have reduced wheat seeding in some counties. Present indications are for slightly less seeding than last year.

Pastures dried up badly during August, and in the east counties many farmers are feeding as in mid-winter. Condition 70 per cent, although in some of the northwest counties pastures are exceedingly good.

Missouri farm prospects are at a standstill, and crop conditions much below those of August 1st. Drouth cut all growing crops. The railroad strike is seriously interfering with the outward movement of products, especially apples, peaches, watermelons and live stock, and preventing the free bringing-in of farm supplies. Farmers must stand further heavy losses unless freight conditions improve in the very near future.

RAIN DOES DAMAGE TO STREETS IN MARYVILLE

Considerable damage was done to the streets in Maryville by the big rain Saturday afternoon, but it was not as great as that done in the flood that came in July. A new brick crossing that had just been finished at Mulberry and Second streets was undermined so that a part of the walk settled. It was necessary for the city to place a red lantern at that place last night to warn people to step carefully. Another large hole was washed on South Main Stret.

Drs. Wallis to Texas.

Dr. and Mrs. L. C. Allender and son, William, of Atlantic, Ia., arrived in Maryville Saturday for a week-end visit with Dr. Allender's parents, Dr. and Mrs. J. C. Allender, and with Mrs. Allender's father, Dr. William Wallis, Sr. Dr. Wallis, Sr., with his son, Dr. Frank C. Wallis, and his brother, Frank Wallis of Pickering, left Maryville this morning in the Wallis car for La Feria, Texas, where they will live. Dr. Wallis, Sr., came to Nodaway County fifty-two years ago today.

THE REV. C. C. JAMES OF TRENTON MAY COME HERE

Father of Miss Minnie B. James Suggested as Pastor of First Methodist Church

According to the Trenton Republican, it is rumored that the Rev. C. C. James, who has been pastor of the M. E. Church at Trenton, may be sent to Maryville or St. Joseph. The Trenton paper had the following:

"Tomorrow Rev. C. C. James will preach the final sermon before going to conference on next Tuesday. Persistent rumors have come that Rev. James will not be returned here but he may be sent to St. Joseph or to Maryville, both of which are larger charges than this. No one will know save the bishop, how true this is, until the charges are read out on the last day of the conference."

The Rev. Mr. James occupied the pulpit of the First M. E. Church of this city on Suaday morning, August 27. He is the father of Miss Minnie B. James of the commerce department of the State Teachers College.

The name of Dr. Cameron Harmon of the Missouri Wesleyan College at Cameron has been mentioned for the pastorate of the Maryville church. It is thought the church will have to pay more money than they can afford to pay to get Mr. Harmon. Mr. Harmon has occupied the pulpit of the First M. E. Church of this city several times.

The Dr. O. L. Curl, retiring pastor of the First M. E. Church of this city and who is leaving the ministry to enter the practice of law, gave his last sermon yesterday. Dr. Curl is the Republican candidate for prosecuting attorney of this county.

Return From Nebraska

Mrs. H. S. Schoonover and little daughter, Mabel returned Saturday from Edison, Neb., where Mrs. Schoonover spent a month for the benefit of her hay fever. Mrs. Schoonover brought back with her some samples of the potatoes raised in that country, many of them averaging over a pound. These potatoes were raised by her cousin, George Bard, and were planted last fall. Mrs. Schoonover reported crops are badly burned on account of the hot and dry weather.

COOPER TELLS OF NEED OF BROADER VISION OF THINGS

Says Now That World War Is Over There Is a Lack of Men to Lead To Co-operation

The Rev. Joseph A. Cooper gave yesterday morning at the First Baptist church his first sermon in Maryville since before he left on his chautauqua tour in the spring and last night he spoke on some of the thoughts that had been suggested to him by his chautauqua work. His lecture during the summer was "The Supreme Test of Civilization."

It is Mr. Cooper's opinion that we as a people do not pay enough attention to things outside of our business and our homes. He took the chautauqua movement as an illustration of what might be accomplished through having a broad vision and a desire to touch those outside of our business and home. Mr. Redpath, a short time after the Civil War, conceived the idea that many people throughout the country should be touched by the things that could be offered in a chautauqua. Accordingly he set to work and this year between 35 and 40 million persons attended chautauquas in the United States.

"The World War cost 450 billion dollars in all and it took the lives of 8 million people and wounded 20 million. But after it is all over we still lack men with a world vision for leadership to take the world to a regeme of co-operation.

"As the first step toward the work of co-operation Mr. Cooper suggested the local organizations such as the churches, the schools and the Chambers of Commerce."

Will Move to Maryville

Mr. and Mrs. Joe Honer, living four and a half miles southwest of Maryville, have leased the cottage of Miss Clara Roelofson at 320 West Third street and will take possession in a few days. Mrs. Eva Honer, a daughter, expects to enter the Maryville High School.

Here From Skidmore.

Mr. and Mrs. Warren Mullin of west of Skidmore, were in Maryville today on business. Mr. Mullin reports that his apple crop will be large this year. They expect to start picking in a few days.

They were accompanied by Mrs. Robert Barrett, Sr., who called on her son, Ellwood Barrett, and other friends while in town.

The All-Round Coat!

To Brave the Chilly Days

Whether of Double Face Cloth, the reverse side of plain, checked or plaid pattern in blending-contrasting colors, or of Herringbone Tweed, whether self or shawl-collared in Beaverette, Raccoon or Marmot, milady will glory in these mannish, patch-pocketed, trimly belted coats that bespeak style, warmth and comfort to weather cold or stormy winter days. Sizes 16 to 44. She'll be mighty pleased to note the savings afforded in this price range of.

$14.75 to $39.75

Natty Tailored Suits

In Fall's Newest Browns

Tricotine favors this suit. When trimmed with self straps, silk embroidery and stitchings, and silk-lined, its value is incomparable at **$34.75**

Yalama Cloth develops this box model. A smart note is gained by the fur collar, slash pockets and clusters of cordings. **$24.75**
